Southpark Art Dentistry is offering the Dental Savings Plan to address the needs of patients who do not have traditional dental insurance. Dental insurance is exponentially increasing in cost and severely limits coverage for most procedures. Our goal is for you to have exceptional dental care without having to comply with the expense and bureaucracy of dental insurance. We can offer this plan because we do not have to spend valuable time verifying, billing, and calling insurance companies. We pass this savings on to our patients and give them the ability to take control of their own dental health. Patients will even be able to save on treatment generally not covered by insurance – such as implants, night guards, Invisalign, and cosmetic procedures.
